

Troy Community Farm

2012 Plant Sale

Date: Saturday, May 12th
Time: 10:00 AM to 2:00 PM
Location: Troy Passive Solar Greenhouse
 502 Troy Drive
 Madison, WI 53704

All our plants are certified organic and grown in our passive solar greenhouse. Passive solar means that we do not burn fossil fuels for heat, but use only the sun.

Packs can be sold as one variety or as a mix of varieties of any one plant type (melon for instance). We grow all these varieties on our farm, and we like how they perform in our Madison climate.
